

# INSIDE REFLECTIONS

May 2020

**We love sharing our newest innovations!**

**SIDLER Quadro is here!**

Featuring a clever all-a-around design!

Atmospheric illumination paired with technical finesse. The 45° ambient light frames this mirror cabinet and creates a floating, glowing effect. And when the cabinet is perfectly recessed into the wall, this effect is even more noticeable and stunning!

Offers practical solutions! Are you bumping into your bathroom counter or walls in the middle of the night trying to find your way in a dark bathroom when you are half awake? The SIDLER Quadro illuminated mirror features an integrated, dimmable night light with an easy access switch located inside the cabinet right

next to the GFCI outlet and USB port.

It's easy on the eyes while providing optimum light as the CRI  $\geq 90$  guarantees natural colour illumination from our LED's. The lighting is complimented with our standard mirrored back wall interior for that finished 'SIDLER" touch.

*Sizes range from 19" to 60" in single, double and triple door options*
